

## **AIR's Online Astrology Services**

### **Alphee Lavoie and Sergey Tarassov**

### **Compare your chart with 330 full time Astrologers**

This service performs the astrological analysis of your natal chart and calculates how your horoscope fits with the horoscopes of full time astrologers. We used the advanced Neural Network technology to teach the program to perform this analysis.

Just enter your birth data and click the "Calculate" button. If you need assistance entering your birth data please refer to our online Help files to "Calculate Natal Chart".

The response will read:

**Your chart corresponds by 44.66% (0-100 scale used)**

A scale of 0-100% is used. 100% means that your chart corresponds 100% to those who are full time astrologers and 0% show no correspondence.

This is only one small feature found in our Astro-Investigator Research program.. See our website for the many different, innovative features that are found only at AIR Software! This program sets the State of the Art in astrological software
