

AIR's Online Astrology Services Alphee Lavoie and Sergey Tarassov

Calculate your predictive techniques

This fantastic service allows you to apply the power of astrology to your life. Begin by entering your birth data, then enter the transit data.

The screenshot shows a web form for calculating astrology charts. It is divided into several sections:

- Natal Data:** Includes fields for Year (2007), Month (Jul), Day (9), Time (12:51), and AM/PM (PM). It also has dropdowns for Region (USA), Country (California), and Town (Alameda). Latitude is 37.4555 N and longitude is 122.1426 W. Time Zone is 7.0000 W.
- Transit Data:** Includes fields for Year (2007), Month (Jul), Day (9), Time (12:51), and AM/PM (PM). It also has dropdowns for Technique (Transit) and Double Wheel (Natal Inside).
- Options:** Includes dropdowns for image size (600 x 600), Zodiac (Geo), Orb (1 deg), House System (PLACIDUS), Geocentric (no parallax), Wheel (American), and Palette (Fall). There is a "Calculate!" button.
- Navigation:** Includes a "Step=1 d" dropdown, "+ dT" and "- dT" buttons, and a "to Print" checkbox.

Please refer to the online Help file if you need assistance to enter data to “Calculate Natal Chart”.

Choose from 16 forecasting Techniques.

The screenshot shows a dropdown menu for selecting a forecasting technique. The menu is open, showing the following options:

- Progression 1y 1d
- Transit
- Backward Transit
- Progression 1y 1d
- Progression 1y 1d Converse
- Tertiary
- Tertiary Converse
- Solar Arc 1y=1d
- Solar Arc 1y=1d converse
- Solar Return
- Moon Return
- Merc Return
- Venus Return
- Last New Moon
- Solar Return Sidereal
- Mercury Return Sidereal
- Venus Return Sidereal

Select the zodiac (11 options), image size, orb, house system, design options (wheel type, palette) and astronomical option (parallax).

If you do not click any options here your chart will automatically default to the settings that are used by most western astrologers. But more advanced users can calculate progressed charts in heliocentric coordinates or any of our other unique options.

2007 Jul 9 Time 1:09 PI

Technique **Progression 1y 1d** Doub

Options

600 x 600 **Helio** Orb=1 deg

DIACUS Concentric (no parallel)

You can remove all controls from the screen (keeping the wheel and table only) by clicking the

to Print

'to print' button.

You may vary the transit data by clicking these buttons.

eel American palette | all
 Step=1 d to:

Enter your name in the space where it is requested.

To print this table check the button 'to Print'. to Print and use the standard features of your browser. For example, if you use Internet Explorer then go to "File"->"Print" menu.
